Solo and Ensemble Upload Instructions

Recordings may be uploaded to any video hosting service (YouTube, Vimeo etc.) as long as the video can be posted as unlisted (not searchable) but not private (link must be sharable). The instructions below are for Google Drive.

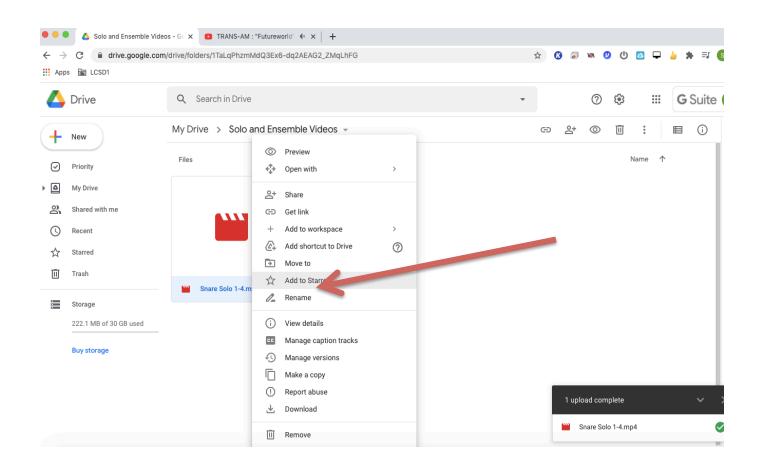

1. Create a new folder for your videos

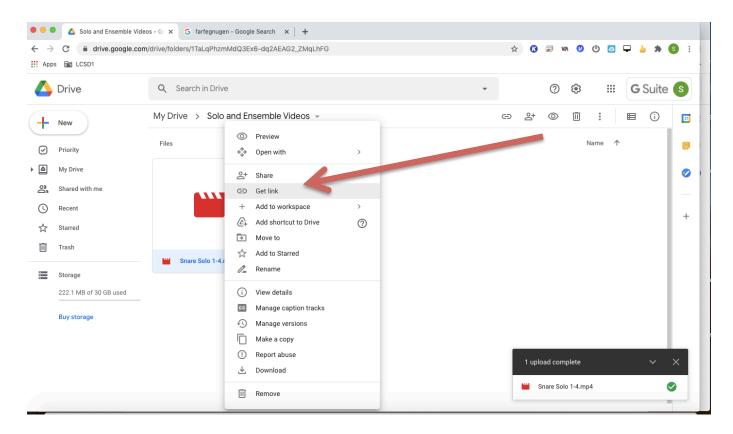

- 2. Add videos from your computer. Google Drive supports the following file formats:
 - WebM files (Vp8 video codec; Vorbis Audio codec)
 - MPEG4, 3GPP, and MOV files (h264 and MPEG4 video codecs; AAC audio codec)
 - AVI (MJPEG video codec; PCM audio)
 - MPEGPS (MPEG2 video codec; MP2 audio)
 - WMV
 - FLV (Adobe FLV1 video codec, MP3 audio)
 - MTS
 - 0GG

3. Right click on each video and rename the file. Begin with the Event Code at the beginning of the file name, plus any helpful identifying information of your choice (names etc).

4. Right click on each file to access the link you will need to paste into the upload form on Bandlink.

5. While accessing the link, make sure the permissions are set to be viewable by anyone with the link.

6. Copy the link and paste it into the appropriate field in the Bandlink upload form for each event.
